

FROG® CLARIFIER 4PRO™ DFU

BEFORE APPLYING FROG CLARIFIER 4PRO:

Make sure all pool equipment is working properly, including pump, filter, skimmer and heater. If recently used FROG® Algae Blocker 4Pro™, wait at least 2 weeks before using FROG Clarifier 4Pro.

Curative

Dosage: 1 pod per 10k gallons.

1. Backwash or clean filter according to manufacturer's instructions.
2. Using chart – Apply appropriate number of pods to the skimmer or pump basket. No more than 3 pods in pump basket at once.
3. Allow pump and filter to run continuously for 24-48 hours.
4. Don't backwash filter for 2 weeks after application. If cloudy water persists for more than 48 hours, confirm equipment and filter are functioning properly.

NOTE: Backwash or clean filter if pressure increases 8-10psi.

Preventative

Use as a monthly treatment to keep the pool sparkling clear all pool season!

1. Backwash or clean filter according to manufacturer's instructions.
2. Add 1 pod per 30,000 gallons to the skimmer or pump basket.
3. Allow pump and filter to run continuously for 24-48 hours.
4. Don't backwash filter for 2 weeks after application.
5. Apply a new pod every month to maintain crystal clear water.

POOL SIZING CHART FOR CURING CLOUDY WATER	
Gallons	# of Pods
5,000 – 10,000	1
10,001 – 20,000	2
20,001 – 30,000	3
